of the seventeenth century a very good collection of the available medical literature had been assembled and the Library had become, what it has been ever since, one of the major activities of the College and the chief burden on its funds

As a result of its long unbroken history the Library is particularly rich in the early sources of medical knowledge and possesses many rare and some unique books It contains also over 1000 volumes of manuscripts for the most part connected with the founders of the Edinburgh Medical School

The number of volumes in the Library is now over 150,000 The Library inherits a remarkable collection of unbroken runs of periodicals and all the important medical works are represented in some edition At the present time 500 journals are received each year and a selection of the more important monographs is added to the Library A list of accessions is issued quarterly The

The Research Laboratory

The control of the Laboratory passed from the College to the University on 1st October 1950, following a decision of the Carnegie Trustees who were the owners of the property at 2 Forrest Road Thus there was brought to an end a notable chapter in the history of the College, covering a period of sixty

years, during which much valuable research work was accomplished and reporting facilities were afforded to very many over the length and breadth of the land It is satisfactory to record that the premises continue to be used for research purposes and that the Histological Department is remaining at Forrest Road It is hoped that the latter will be perpetuated under whatever form the Lister Memorial Scheme to which the [illegible]
